## **CNN's - "The Legacy of Barack Obama"**

**Friday January 20th @ 7:00 P.M**

Through extraordinarily candid interviews with President Obama, as well as many of the key players who served his administration, 'The Legacy of Barack Obama' examines the historic election of America's first African-American President, the impact of the gridlock that haunted his tenure, what he achieved in the face of unprecedented opposition, and the vexing problems he was unable to solve. Fareed Zakaria illustrates the behind-the-scenes concerns and strategy that yielded President Obama's comprehensive healthcare legislation – a feat that had eluded seven previous presidents, his personal struggle with the racial strife that rocked his years in office, the rescue of the global economy, the historic deal with Iran to halt that nation's march towards a nuclear weapon, the global climate change agreements, the appointment of two women to the U.S. Supreme Court, and Obama's moves on social issues such as marriage equality for gay Americans, equal pay legislation, criminal justice reform, and more.

Come join us for a look back at the achievements and disappointments of the Obama presidency. It is said that the arc of the universe bends towards justice. Let us together recommit to doing the work necessary to ensure that over the next four years that arc continues to bend towards justice, equality for all and the protection of our planet

*3rd Friday Film Series ~ Hosted by the First Parish Peace & Justice Committee*

*Runtime - 145 mins. Open to All*
