***THE SUN SHINES ON
TRINITY COVENANT CHURCH***

You are warmly invited to the

**25KW Solar Power Canopy
Ceremony of Thanksgiving and Dedication**

Saturday May 20, 2017

4:00—4:30 pm

Please join our congregation and other community members at a brief ceremony to dedicate the recent completion of the project to build a 25KW solar power array on a canopy structure at Trinity Covenant Church. This project was planned and executed over a two year process, with expert help from our consultant Mark Sandeen, of RePower Partners, Lexington, who showed that the canopy design would be a much more energy- and cost-efficient solution for our site than a rooftop installation. Construction was done by Solworks Energy, Ben Cumbie, president.

Following a brief ceremony of thanks and dedication, we will share refreshments and a time to connect with each other, under the new solar canopy.

We hope that you will be able to attend. Please share this invitation with people in your community who would be interested!

Rev. Christopher W. Haydon, Senior Pastor
and the Solar Power Planning Team

CONNECTED IN CHRIST - GROWING IN FAITH - EXTENDING IN LOVE
